

Home and Other Dislocations

On Display at the UCLA Arts Library

Exhibit Information

April 11, 2025 – September 26, 2025

[UCLA Arts Library](#), 1400 Public Affairs Building, Los Angeles, CA, 90095

Exhibit Description

“Built space — architectural, urban and regional — is a complex social product and is produced by an equally complex set of economic, technological, social, political, and semiotic processes.”
— Lagopoulos, Alexandros Ph

This exhibit challenges the concept of home and its associations. It draws from the semiotics of space, the interdisciplinary study of the built environment and the psychic and physical attachment to ideas surrounding home, houselessness, displacement and gentrification.

Exhibit Bibliography

Note: numbers correspond to individual items labeled in the exhibit cases.
